Subject: Proposed NGS Minor New Source Review Permit
Attachments: Letter to Applicant Proposed Permit 2-1-2016.pdf; NGS Public Notice.pdf; NGS Proposed Permit Feb 2016.pdf; NGS Technical Support Document Feb 2016.pdf

Dear Dr. Benn and Eugenia,

On February 20, 2015, the U.S. Environmental Protection Agency (EPA) Region 9 Air Permits Office received an application for a Minor New Source Review Permit under the Tribal Minor New Source Review (NSR) Rule at 40 CFR 49.151-161 for the addition of a refined coal treatment system (RCTS Project) at Navajo Generating Station (NGS). EPA has completed its review of the permit application to authorize the construction and operation of the RCTS Project at NGS. We have prepared a proposed permit for the RCTS Project.

Enclosed is our public notice, proposed permit, and technical support document for the Project. These and other documents related to the Project are also available on our website at: <http://www.epa.gov/caa-permitting/tribal-nsr-permits-region-9> or at www.regulations.gov under Docket ID EPA-R09-OAR-2016-0026. It is Region 9's practice to include the requirements for the PSD and Tribal Minor NSR program in a single NSR permit document. As such, we are revising NGS's existing PSD permit, No. AZ 08-01A, to add the Tribal Minor NSR requirements proposed in this action. The Tribal Minor NSR permit number is T-0004-NN. The public comment period will close on Monday, March 7, 2016.

If you have any questions, please contact me at 520-498-0118 (mckaughan.colleen@epa.gov) or have your staff contact Larry Maurin at 415- 972-3943 (maurin.lawrence@epa.gov). Thank you for your attention to this matter.

Colleen McKaughan
Associate Director
